

FRAX[®] and FRAXplus[®] acknowledgements

FRAX was first launched in 2008 with models provided for China, France, Italy, Japan, Spain, Sweden, Turkey, UK and USA. FRAX, and more recently FRAXplus, are designed to be constantly evolving tools with the development of additional country models and languages. These developments are made possible by collaborations with many colleagues across the world. We wish to acknowledge the input of the persons below for the specified models and languages.

Apologies if the list is incomplete or if we have missed anyone off this list. Please make contact so that we can make the appropriate corrections.

If any questions, corrections or additions, please email info@fraxplus.org

Model	Acknowledgement
ASIA	
Armenia	John Bilezikian, Armine A. Haroyan and Narine Mamikonyan
Brunei	Chee Kwang Yung, Manju Chandran
Bangladesh	Minhaj Rahim, Abu Shahin, Manju Chandran
